# The ServicePod

Your New Centre of Excellence

Patent Pending GB 10 11 612.7

## The New ServicePod

- The complete integrated solution for automotive service workshops

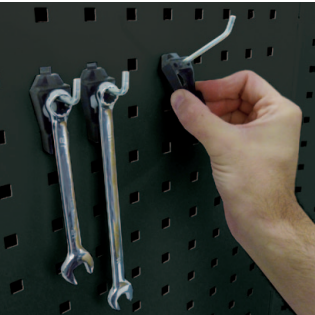

The new ServicePod is a unique concept from Dura – the company that invented the concept of modular workshop furniture with its award winning range.

The ServicePod represents an integrated 'all-in-one' solution with facilities for oil/air/water reels, computer and tool storage, waste bin and glove/towel dispenser in one single 2 metre unit. The design integrates electrical and communications outlets as well as a facility for the optional locking tool storage cabinet that will also house a monitor.

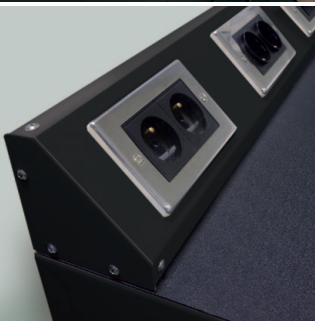

Planning is simple and installation is minimal making the ServicePod ideal not just for new workshops but for enhancing your existing workshop and it's the perfect solution for service reception or rapid fit bays.

**1** Facilities for computer screen and keyboard

**2** Square peg panels for tool storage

**3** Power and communication panel

**4** Composite work surface

**5** Facilities for fluid or air hoses

The ServicePod can be supplied with or without the vertical tool storage cabinet

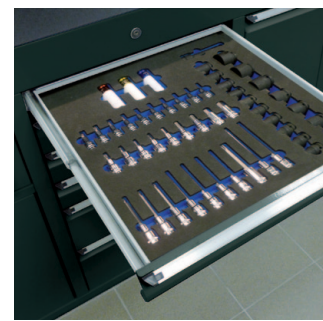

\* Hose ends and back supports protrude 50mm behind rear of cabinet. Allow additional space for connections.

**6** Glove and towel dispenser

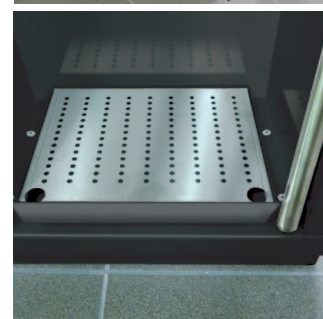

**7** Server cupboard

**8** Facilities for tool storage in control foam

**9** Wastebin

**10** Removable drip trays

## Creators of Modular Integrated Workshop Solutions

Dura originated the concept of integrated workshops in 1997 and remains the leader in this sector – providing a quality modular range of cabinets in addition to the ServicePod. Design is at the forefront of what we do – our philosophy is to listen to our customers and provide them with the products of the highest quality, designed and delivered with unmatched levels of service.

## Improve the profitability of your business

A well designed and organised workshop delivers greater efficiency and improves working practices.

## Improve Customer Satisfaction

Inspire confidence in your business – a professional looking workshop helps retain existing customers and attract new ones.

## Retain Valuable Technicians

A good working environment helps to attract, retain and motivate staff and shows your commitment to them.

## Quality you can rely on

Dura systems are designed for the tough garage environment using the highest quality materials and are used by most of the world's leading automotive companies.
